EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur   **July 2025**
Bachelor of Technology in Computer Science And Engineering   *Current CGPA : 7.62/10*

Institute of Engineering And Rural Technology , Prayagraj   **July 2021**
Diploma   *Percentage : 83.01/100*

SKILLS

Languages: C/C++, Java, HTML, CSS, Javascript, SQL
Libraries/Frameworks: Bootstrap, React, Redux, Express JS, Next JS
Tools/Others: Node JS, MongoDB, Git, GitHub, Data Structure and Algorithms
Certificates: Machine Learning (NPTEL) | CP (NPTEL) | Data Visualisation Virtual Programme (tata) | Wipro TalentNext Java full stack developer | Udemy Full Stack Developer | L&T COP

EXPERIENCE

Oasis Infobyte LTD.   **(May 2023 – July 2023)**
Web Developer Intern   *Remote*
- Mastered advanced concepts of web technologies including HTML5 and ES6 and React syntax by developing interactive features for internal applications aimed at improving usability among employees navigating technical tools daily.
- Designed and implemented intuitive front-end components using advanced JavaScript and React techniques, improving navigation efficiency by 30% and receiving positive usability feedback from team members.

Larson And Tourbo LTD.   **(Nov 2021 – Nov 2022)**
Dipoma Engineering Training (Front End Developer)   *Rishikesh,Uttrakhand*
- Engineered interactive elements within a sleek web application framework employing robust technologies like HTML5 and modern Javascript libraries while ensuring cross-browser compatibility across all major platforms.
- Engaged in collaborative efforts using Git as the primary version control system, facilitating organized code modifications and effective task distribution among three cross-functional teams within tight deadlines.
- Integrated APIs to display real-time project data, reducing manual work by 40%.

PROJECTS

Restaurant | Live | github.com/abhi0561verma/Restaurant   **Full Stack Website**
- A complete food ordering platform leveraging MongoDB, Express, React, Node, and Stripe; streamlined the development process to achieve full functionality in just under three months.
- Created a comprehensive full-stack food ordering application featuring an intuitive frontend, streamlined admin panel for content management, and a robust backend server; delivered complete functionality ahead of schedule within three months.
- Developed a robust user authentication framework from the ground up, enabling seamless account creation and secure login for over 1,000 users on a food ordering platform within just six weeks.
- Transformed the app's interface to be fully responsive, enhancing usability on smartphones and tablets,which resulted in a 20% reduction in bounce rate and 30% higher

MediTalk | Live | github.com/abhi0561verma/MediTalk   **Front end Website**
- Engineered a responsive web application for scheduling appointments within the healthcare sector using React and Tailwind CSS; enabled seamless navigation that led to increased user engagement by 25% on mobile platforms.
- Developed a user-friendly application enabling seamless sign-up, login, doctor search functionality, appointment booking capabilities, and effective management of scheduled visits; enhanced user engagement resulting in 1,000+ active monthly users.
- Optimized the UI for cross-platform compatibility, achieving a consistent experience across desktops, tablets, and mobile devices.
- Designed an intuitive calendar system for selecting time slots, increasing user efficiency in booking appointments.

ACHIEVEMENTS

- **Codeforces** : Achieved a peak rating of 1035.
- **Leetcode** : Rating - 1657 | 600 + Questions | Annual Batch (400 Days) .
- **GFG** : 450 + Questions | Annual Batch (400 Days) .
- **Codechef** : 2 star (Max Rating - 1418)
- Solve 900+ DSA Problems across different Platform (GFG, Leetcode, Codeforces, Codechef)

PROFILES

GitHub: github/abhi0561verma **GFG**: geeksforgeeks/abhishekvif7y **Codeforces**: codeforces/abhi056verma
Leetcode: leetcode/abhishekvif7y **Codechef**: codechef/users/abhishek0562 **Portfolio**: abhishek-portfolio

RELEVANT COURSEWORK

Languages: Data Structure And Algorithm, Database Management System, Object Oriented Programming, Operating System, Computer Networks, DAA, Machine Learning (ML), Artificial Intelligence (AI)
